

FERRETTI 780

The Ferretti 780, 24 meters long, is characterized by a completely innovative layout considering its internal details that guarantee ample space. It also presents refined finishes in teak wood compared to the traditional cherry wood that is normally adopted for a yacht of such dimensions. The design decision to integrate the access ladder to the fly bridge within the wall structure of the yacht offers a continual visual solution from the rear deck facing the bow- thus enlarging the space dedicated to the conversation area featuring double sofas of contemporary design. Light coloured finishes highlight the spirit of the boat, while large window structures allow to live in close contact with the sea, rendering the master cabin and the bathroom area an environment of great elegance to enjoy in full contact with the sea.
